About ASI
Associated Students, Inc. (ASI) is an inclusive, empowering, student-driven organization committed to providing programs, services, and facilities that enhance and develop the student learning experience. Cal Poly students are stakeholders in ASI and have access to leadership positions through Student Government and on-campus employment. All of these opportunities are designed to complement Cal Poly's educational mission, support a balanced education, and give students ownership and pride in their college experience.

History
Cal Poly's Associated Students organization was established in 1940 and officially incorporated in 1964. ASI operates in the form of shared student governance representing the collective student voice of Cal Poly. We are one corporate, legal entity responsible for the administration and oversight of all ASI programs and services.

ASI continues to relish in its heritage of serving students. It is fully invested in student success and here to provide state-of-the-art, well-managed facilities, programs, and resources to help students reach their full potential.

Funding
The primary funding for ASI comes from student fees comprised of two major components: the ASI fee and the University Union fee. These fees are collected when Cal Poly students enroll in classes and provide base funding for all ASI operations.

Fees are intended to serve students through ASI programs and services, as well as the maintenance and operation of ASI-managed facilities, including the Julian A. McPhee University Union, Cal Poly Recreation Center, Cal Poly Sports Complex, Orfalea Family and ASI Children's Center, and Doerr Family Field.

ASI Student Government
University Union (65), Room 202
Phone: 805-756-1291

ASI Student Government is comprised of elected and volunteer student leaders who act as the collective voice of the student body. Student leaders work together to practice shared governance, student advocacy, and collaboration with campus and community entities to ensure student interests are represented at every level.

There are three branches of Student Government:

ASI Executive Cabinet: Members are appointed by the ASI president and chief of staff and work to carry out the president's goals. Elected in the spring, the ASI president serves for the academic year and is responsible for providing input regarding corporate operations and student advocacy.

ASI Board of Directors: The official voice of Cal Poly students. The board is comprised of representatives from each academic college who establish policies and parameters for the affairs, properties, personnel, and operations of ASI.

University Union Advisory Board (UUAB): Works to maintain the integrity of the University Union student body fee, which students pay quarterly as part of their tuition. Makes policy recommendations regarding ASI-managed facilities.

ASI Children's Programs
The Orfalea Family & ASI Children's Center is one of the most sought-after learning facilities on the Central Coast.

Cal Poly students have first priority to enroll their children at the center, which provides quality early care and education services to children from four months of age through kindergarten. Cal Poly faculty and staff receive second priority for enrollment, followed by Cal Poly alumni and community members.

The center provides a learning environment where children are encouraged to explore ideas and interests through detailed project work that is focused on the children's interests, ideas, and discoveries.

The center serves 125 children and currently maintains a waitlist to enroll new children. Adding a child's name to this list is the first step toward enrollment.
