## Academic Program

Program name	Program type
Journalism	BS

The Journalism Department offers a professional program leading to the Bachelor of Science degree in Journalism. All majors must complete the basic journalism core courses in addition to a sequence of courses selected from an identified track and a list of electives from which they must choose in consultation with an academic advisor.

Of the 180 units required for a bachelor's degree, 104 quarter units must be taken in courses outside the major area of journalism/media/mass communication. Each student is strongly encouraged to take a modern language to satisfy his or her elective units. For media-related courses offered outside the major, students are required to consult with their academic advisor before enrolling in these classes.

All journalism majors are expected to serve as staff members of the department's student-run media organizations, including digital, print and broadcast editions of Mustang News; public relations firm Central Coast PRspectives; Cal Poly's radio station, KCPR-FM; and program operations of Cal Poly's TV station, CPTV. They are also expected to participate in professional and scholarly organizations in their areas of interest, in addition to applying acquired skills and developing professional abilities in an approved media internship.
