Undergraduate Program Queer Studies Minor

The Queer Studies (QS) minor provides students with opportunities to explore how sexuality is central to human societies. The Queer Studies minor promotes intersectional, interdisciplinary scholarly inquiry, education and activism that emphasizes how constructions, experiences and expressions of sexuality (including the invention of homo/heterosexuality and ab/normality, intimacy, kinship networks and embodiment) change over time and are lived in relation to interlocking systems of race, ethnicity, religion, class, nation, age, dis/ability and gender. Students completing the minor will develop the intellectual and practical skills necessary to contribute to scholarship, creative production and innovation in the interdisciplinary field of Queer Studies and to serve as leaders in the creation, enactment and evaluation of efforts to create a more inclusive, just and equitable world.

Women's and Gender Studies Minor

The Women's and Gender Studies (WGS) Minor empowers students to question and contribute to knowledge creation, community formation, activism, creative practice, and policymaking from interdisciplinary feminist perspectives. The WGS minor encourages active student learning and sophisticated engagement, and a critical understanding of how genders and sexualities shape and are shaped by social, political, ethical, economic, legal and cultural institutions in historical and contemporary contexts. Areas of exploration include femininities, masculinities, and other gender identities. The Women's & Gender Studies minor promotes scholarly inquiry, education and activism that utilizes an integrative approach, exploring the intersections of gender, race, class, sexuality, ethnicity, religion, dis/abilities, citizenship status, and other social categories within both national and transnational contexts.
