

CITY AND REGIONAL PLANNING MINOR

Offered at: San Luis Obispo Campus

The minor provides students with an interdisciplinary understanding of the science and the art of city planning and its relationship with other environmental design professionals. The student is provided with an understanding of how growth and change affect the physical, social and economic aspects of the city, including the relationships among land use, transportation, housing and the environment. Courses that build skills in the preparation of plan documents, land use studies and environmental studies are combined with laboratory courses providing opportunities for involvement in community building and plan-making projects.

The minor is excellent preparation for creating visions of the future, participation in government and community organizations. It enhances skills in disciplines that have linkages with cities and the built and natural environments. It provides the student with the knowledge, skills and values that help people build better communities and cities.

Minor Requirements and Curriculum

The minor must be completed prior to, or at the same time as, the requirements for the bachelor's degree. A major and a minor may not be taken in the same degree program, and a minor is not required for a degree. Requirements for the minor include:

- At least half of the units must be from upper-division courses (3000-4000 level).
- At least half of the units must be taken at Cal Poly (in residence).
- No more than one-third of the units will be taken with credit-no credit grading (CR/NC), not counting courses with mandatory CR/NC. Departments may further limit CR/NC grading if desired.
- A minimum 2.0 GPA is required in all units counted for completion of the minor.

Code	Title	Units
REQUIRED COURSES		
CRP 1212	Introduction to City Planning	4
Approved Electives		
Select from the following:		3-4
CRP 1211	Urban Planning History	
CRP 1213	Methods of Population and Housing Analysis	
CRP 1215	Planning Approaches to a Just City	
CRP 1222	The Divided City: Urban Studies on Spatial Justice	
CRP 2214	Methods in Land Use and Transportation	
Select from the following:		11-12
CRP 2457	GIS Applications in Planning	
CRP 3303	Smart Cities	
CRP 3334	Cities in a Global World	
CRP 4325	Planning for Bicycling and Walking	
CRP/NR 4408	Water Resource Law and Policy	
CRP 4420	Land Use Law	
CRP 4428	International Planning and Development	
CRP 4442	Planning and Housing	
CRP 4445	Green Infrastructure	
CRP 4446	Development Review and Entitlement	
CRP 4448	Principles of Urban Design	
CRP 4455	Transportation Policy and Planning	
CRP 4458	Hazard Mitigation Planning and Resilient Design	
CRP 4481	Urban Design and Real Estate Development Case Studies	
Total Units		19
