The Experience Industry is a cornerstone of American culture and critical to both the United States and global economies. Globally, the experience industry sees approximately $980 billion in spending; in the United States, international tourism generates approximately $250 billion and the US is consistently ranked as one of the top tourism earners in the world. The experience industry includes (but is not limited to) event planning, sport management, travel, hospitality, tourism, destination management, leisure, and parks and recreation, providing structured and co-created experiences that contribute to quality of life, economic vitality, sustainability, and social equity. The industry offers numerous experience management employment opportunities, both in the United States and abroad.

Students are prepared for professional employment in destination management and marketing, corporate, mega, and social event planning, sport promotion and game-day operations, experiential marketing, hospitality management, tourism operations, park management, community recreation, employee experiences, outdoor recreation leadership, and convention and meeting management. Students select a concentration in event planning and experience management; tourism, hospitality, and destination management; and sport and recreation management.

To prepare students for their professional careers, the major includes a required 400-hour internship (one quarter) with an organization within the experience industry management umbrella. Students must also complete 1,000 hours of paid or volunteer experience prior to the internship.

Graduates employed nationally and internationally strategize, design, create, plan, organize, execute and evaluate experience industry programs and services for visitors, guests, customers, and clients in a variety of settings. Management, marketing, and planning skills, developed through coursework and through practical, hands-on applications, allow for career progress into executive management positions within the experience industry.

Students develop those competencies through a myriad of partnerships developed by the department with local, state, national, and international organizations. These partnerships allow students, both in and out of the classroom, to gain valuable Learn by Doing experiences that set them apart from other entry-level professionals in the global market.

Undergraduate Programs

BS Recreation, Parks, and Tourism Administration

The Experience Industry Management (EIM) department prepares students to be leaders in an industry that promotes healthy lifestyles, protects memorable places, and facilitates life-enhancing experiences for individuals, communities, and the global society. The program is accredited by the Council on Accreditation of Parks, Recreation, Tourism and Related Professions (COAPRT).

In addition to major requirements, the curriculum provides a full range of general education and support courses. These courses are designed to fully educate and prepare students for culturally diverse and inclusive environments, community engagement, and international understanding in a global society.

Concentrations

Event Planning & Experience Management

Prepares students for a professional career in experience design, event planning, leadership, and management for a variety of structured and co-created experiences, including festivals, celebrations, conventions, meetings, and expositions, social life-cycle events, mega and hallmark events, sporting, international, and non-profit events. Courses focus on strategic event planning, marketing, structured experience and co-created experience design, implementation, and management.

Sport & Recreation Management

Prepares students for management positions with sport and recreation entities ranging from professional sport franchises to community nonprofit organizations to adventure recreation outlets and intercollegiate athletic programs. Career elective tracks include: Professional Sport and Intercollegiate Athletics, Adventure Sport and Outdoor Recreation, Coaching and Sports-Based Youth Development, and Community and Nonprofit Recreation. Areas of study include: sport marketing and promotions, sport and environmental ethics, leadership and facilitation, special event planning, sports-based youth development, community relations, grant funding and development, and coaching.

Tourism, Hospitality & Destination Management

Prepares students for a professional career with organizations that provide experience industry products or services for national and international tourists. Students may choose to emphasize in areas such as resort and lodging experience management, tourism planning and destination management, food and beverage experience management, tour operations, tourism, hospitality, and destination marketing, and entrepreneurship.

Event Planning & Experience Management Minor

This minor prepares students for a professional career in experience design, event planning, leadership, and management for a variety of event genres including corporate events, conventions, festivals, meetings, exhibitions, mega and hallmark events, sporting, international, and non-profit events. Principles of experience design, structured and co-created experiences will be explored. Courses focus on strategic event design, planning, implementation, and management. Not open to RPTA majors.
