

# BA COMMUNICATION STUDIES

## Program Learning Objectives

1. Describe the foundational concepts, theories, and methods of critical, humanistic, and social scientific approaches to studying communication.
2. Analyze mediated and non-mediated communication practices, messages, and effects considering the culture and context in which they occur.
3. Practice self-reflexivity about one's own communication practices.
4. Develop a critical framework for making ethical and inclusive communication choices.
5. Select appropriate modalities and technologies to accomplish communication goals.
6. Apply communication concepts, theories, and methods to real-world events, issues, and problems.
7. Produce effective and ethical communication based on awareness of diverse perspectives, contexts, and social identities.
