

PARENT AND FAMILY PROGRAMS

<https://parent.calpoly.edu/>

Parent and Family Programs provides support, resources and exciting programming for the proud parents, family members and supporters of Cal Poly students. The office strives to facilitate communication between and among parents and the university, support student success by increasing parent awareness of university resources and help parents develop strategies to meet the unique challenges of parenting students through the college years.

Parent and Family Programs hosts events throughout the year, including orientation sessions, move-in receptions and Mustang Family Weekend. The office also oversees the Parent Advisory Council, a group of parents and supporters who collectively provide feedback and support to Parent and Family Programs and give input to university leadership on matters involving student development and success.
